

DL200™ Letter Opener

Improved efficiency for incoming mail

» Open your daily mail quickly and neatly with the Pitney Bowes DL200™ letter opener

This sturdy, automatic letter opener sits easily on any desk or table, ready to open the wide variety of envelopes that you receive each day.

» Improve productivity

The DL200™ operates at speeds of 250 letters per minute. Opened mail is presented in a stacker allowing you to distribute your mail quickly and efficiently. Designed with mixed mail in mind, the unit will operate until the feeder is empty – freeing operators to perform other tasks. Waste is separated into an easy to empty tray for quick and easy disposal.

The unit features a display with numeric counter. This allows the operator to monitor batch quantities. Furthermore, by setting the unit to count only mode, the unit can be used as a counter.

» Minimise risk

The DL200™ removes a sliver of paper from the top of the envelope, ensuring that envelope contents are always protected and reducing the risk of paper cuts. Adjustable cut settings allow you to alter the depth of cut to the profile of mail that you are handling.

» Specifications

Speed:	250 letters per minute
Minimum envelope size:	76.2 x 127mm
Maximum envelope size:	260 x 330mm
